U.S. Patent and Trademark Office PTOL-303 (Rev. 11-03) Judy M. Reddick Primary Examiner Art Unit: 1713 Continuation Sheet (PTOL-303) 110/806,497

Continuation of 5. does NOT place the application in condition for allowance because: it is urged and maintained that the instantly claimed invention(1 & 3-5) is obvious within the meaning of 35 USC 103 over Vanderbilt et al in combination with applicants' own disclosure as per reasons clearly stated in the previous Office Action(09/25/03).

Continuation of 10. Other: Counsel is herein reminded that a reference is evaluated, as a whole, for what it fairly teaches and is in noway limited to bits and pieces and to this end, it is urged that it would have been obvious to the skilled artisan to extrapolate, from the disclosure of Vanderbilt et al, the combination of powdered polyvinyl chloride and latexes based on conjugated dienes and acrylonitrile a per such having been within the purview of the general disclosure of Vanderbilt et al and with a reasonable expectation of success. Criticality for such, clearly commensurate in scope with the claims, not having been demonstrated on this record.
